Details

Description

PrimoFlex® quality hose 1/2" 20 m ideal for watering small to large areas and gardens. 3 layer garden hose, pressure-resistant, reinforced braided, free of phthalates, cadmium, barium and lead, harmless to health. A weather-resistant, UV-proof outer layer protects the material, and an opaque interlayer prevents algae formation in the hose. Bursting pressure 24 bar.
Hose operating temperature range -20 to 65 °C. 12 year guarantee.
Kärcher garden hoses are extremely flexible, durable and non-kinking. The advantages are clear: extremely durable and easy to handle.
Watering with Kärcher is the smart way to water!

Application

- For watering small to large areas and gardens
- For watering large gardens
- For watering food plants and useful plants (small beds, individual and potted plants)
- For watering ornamental plants (small beds, individual and potted plants)
- Cleaning gardening tools and garden furniture
-

Features & Benefits

12-year warranty
Durability

3 layers
Resistant to kinks

Burst pressure 24 bar
Guaranteed robustness

Easy to handle garden hose with pressure-resistant, woven reinforcement
For ease of use.

High temperature resistance from -20 to +65°C
Guaranteed robustness

Cadmium, barium and lead-free
Poses no risk to health or the environment

Intermediate layer which is impervious to light prevents algae growth in the hose
Guaranteed robustness and durability

Weather-resistant anti-UV external layer
Guaranteed robustness
